Job Title: Full Stack Developer
Location: Gurgaon /Remote
Experience: 3+ years
Employment Type: Full-time

Responsibilities

- Develop and maintain scalable web applications using modern front-end and back-end technologies.
- Write clean, high-performance, maintainable, and reliable code.
- Collaborate with cross-functional teams to define, design, and ship new features.
- Design and implement RESTful APIs and integrate with third-party services.
- Ensure technical feasibility of UI/UX designs and optimize applications for maximum speed and scalability.
- Write unit, integration, and end-to-end tests following industry best practices.
- Work with DevOps tools and processes including CI/CD pipelines and infrastructure provisioning (e.g., Terraform).
- Actively participate in code reviews, sprint planning, and team meetings.
- Create clear and concise documentation, including how-to guides and system designs.
- Communicate effectively with internal and external stakeholders, conveying technical concepts clearly.

Qualifications

- Bachelor's degree in Computer Science, Engineering, or related technical discipline.
- 3+ years of hands-on experience as a Full Stack Developer.
- Proficient in **Node.js, React.js, and Python**.
- Solid understanding of web markup including **HTML5 and CSS3**.
- Strong knowledge of both relational and NoSQL databases such as **MongoDB, Redis, and DynamoDB**.
- Hands-on experience with **REST API** design and development.
- Experience working on distributed systems and cloud-native applications.
- Familiarity with **AWS Services** (SQS, Lambda triggers, Auto Scaling).
- Comfortable working in agile environments (Agile/Scrum methodologies).
- Strong understanding of testing principles and appropriate use of unit, integration, and E2E testing.
- Strong written and verbal communication skills.

Nice to Have

- Experience with serverless or microservices architecture.
- Exposure to frontend state management libraries (Redux).
- Contribution to open-source projects or technical blogs.
- Experience working in agile teams or startup environments.
